Re: Draft Order - In the Matter of the Petition of Water Replenishment
District of Southern California, WateReuse Association, and County
Sanitation Districts of Los Angeles County (Review of Waste Discharge and
Water Recycling Requirements for Alamitos Barrier Recycled Water Project,
Order No. R4-2005-0061 of the California Regional Water Quality Control
Board for the Los Angeles Region) - SWRCB/OCC File A-1719

Dear Ms. Potter:

On behalf of Petitioners County Sanitation Districts of Los Angeles County and
the WateReuse Association, we appreciate the opportunity to review and provide
comments on the State Water Resources Control Board's draft order in the above-
referenced matter. We encourage the Board to adopt the draft order, subject to the
following proposed revisions at Page 3, Paragraph 1, as highlighted by underlining
below:

"Chemicals for which notification levels are established may
eventually be regulated by MCLs (after a formal regulatory
process), depending on the extent of contamination in drinking
water, the levels observed in drinking water, and the risk to human
health."

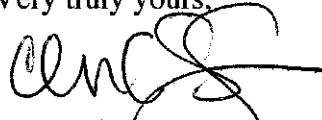

Ms. Selica Potter

March 8, 2006

Again, we appreciate the opportunity to comment, and look forward to addressing the Board on April 5 or such other date as the matter may be heard. If you have any questions or concerns in regard to this letter, please contact me directly.

Very truly yours,
